Background

1 In 1993, the Council established procedures governing the admission and participation of Sector Members (see Document C93/49). In 2000, the Council established related procedures for Associates.

2 In accordance with Article 19 of the Convention, Sector Members, i.e. entities and organizations other than administrations, are divided into three main categories (CV229, CV230 and CV231) with different levels of rights and obligations concerning their participation in the activities of ITU.

3 Pursuant to CV241C, the relevant provisions of Article 19 of the Convention are applicable to Associates. Therefore, the same admission and participation procedures for entities and organizations referred to in that Article are applied to Associates according to their specific category (CV229, CV230, CV231).

Current situation

4 On 28 February 2014, the ITU membership of entities dealing with telecommunication matters (CV 230) consisted of 45 Sector Members and 11 Associates admitted to participate in a given study group.
