WGPL Ad Hoc Group on Resolution 174

RESOLUTION 174 (~~GUADALAJARA, 2010~~ REV. BUSAN, 2014)

ITU's role with regard to international public policy issues relating to the risk of illicit use of information and communication technologies

The Plenipotentiary Conference of the International Telecommunication Union
(~~Guadalajara, 2010~~ Busan, 2014),

aware

- a) that technological innovation driven by information and communication technologies (ICTs) has significantly modified the ways in which people access telecommunications;
- b) that the illicit use of ICTs could have a detrimental impact on a Member State's infrastructure, national security and economic development;
- c) that the definition of "telecommunication", as stated in the ITU Constitution, reads as follows: "*Any transmission, emission or reception of signs, signals, writing, images and sounds or intelligence of any nature by wire, radio, optical or other electromagnetic systems*",

reaffirming

- a) Resolutions 55/63 and 56/121 of the United Nations General Assembly, which established the legal framework on countering the criminal misuse of information technologies;
- b) Resolution 57/239 of the United Nations General Assembly, on the creation of a global culture of cybersecurity;
- c) Resolution 58/199 of the United Nations General Assembly, on the creation of a global culture of cybersecurity and the protection of essential information infrastructures;

d) Resolution 41/65 of the United Nations General Assembly, on principles relating to remote sensing of the Earth from outer space;

[CUB/70/3 – Cuba – To be Further discussed

e) Resolution 68/243 of the United Nations General Assembly, on developments in the field of information and telecommunications in the context of international security,

ARB/79A4/4 - Arab

e) Resolutions 65/41, 66/24, 67/27 and 68/243 of the United Nations General Assembly, on developments in the field of information and telecommunications in the context of international security,

B/75/6 - Brazil

e) Resolution 68/167 of the United Nations General Assembly, on the right to privacy in the digital age, which affirms, inter alia, "that the same rights the people have off line must also be protected on line, including the right to privacy",]

considering

a) that, in the Geneva Declaration of Principles, the World Summit on the Information Society (WSIS) (Geneva, 2003) supported the activities of the United Nations to prevent the potential use of ICTs for purposes that are inconsistent with the objectives of maintaining international stability and security, and may adversely affect the integrity of the infrastructure within States, to the detriment of their security, and that it is necessary to prevent the use of information resources and technologies for criminal and terrorist purposes, while respecting human rights (§ 36, WSIS Geneva Declaration of Principles);

b) that Action Line C5 (Building confidence and security in the use of ICTs) of the Geneva Plan of Action stipulates the following: "Governments, in cooperation with the private sector, should prevent, detect and respond to cybercrime and misuse of ICTs by: developing guidelines that take into account ongoing efforts in these areas; considering legislation that allows for effective investigation and prosecution of such misuse; promoting effective mutual assistance efforts; strengthening institutional support at the international level for preventing, detecting and recovering from such incidents; and encouraging education and raising awareness",

considering further

that WSIS (Tunis, 2005) identified ITU as moderator for the implementation of Action Line C5 (Building confidence and security in the use of ICTs),

recalling

a) Resolution 130 (Rev. ~~Antalya, 2006~~ Guadalajara, 2010) of the Plenipotentiary Conference, on strengthening the role of ITU in building confidence and security in the use of ICTs;

b) Resolution 102 (Rev. ~~Antalya, 2006~~ Guadalajara, 2010) of the Plenipotentiary Conference, on ITU's role with regard to international public policy issues pertaining to the Internet and the management of Internet resources, including domain names and addresses;

c) Resolution 71 (Rev. ~~Antalya, 2006~~ Busan, 2014) of the Plenipotentiary Conference, in particular strategic goal 43: "~~Developing tools, based on contributions from the membership, to promote end-user confidence, and to safeguard the efficiency, security, integrity and interoperability of networks~~" "Sustainability – Manage challenges resulting from telecommunication/ICT development", which establish Union focus on enhancing the sustainable and safe use of telecommunication/ICTs, in close collaboration with other organizations and entities";

d) Resolutions 1282 and 1305 of the ITU Council, the latter of which listed issues pertaining to the use and misuse of the Internet among the main tasks of the role of the Dedicated Group in identifying international Internet-related public policy issues;

e) Resolution 45 (Rev. ~~Hyderabad, 2010~~ Dubai, 2014) of the World Telecommunication Development Conference (WTDC), on mechanisms for enhancing cooperation on cybersecurity, including countering and combating spam;

~~f) — the Hyderabad Dubai Declaration adopted by WTDC, in particular the Cybersecurity Programme 2 (Cybersecurity, ICT applications and IP-based network-related issues);~~

f) the ~~Hyderabad– Dubai Declaration~~ Dubai Action Plan adopted by WTDC, in particular ~~Programme 2 (Cybersecurity, ICT applications and IP-based network-related issues)~~ Objective 3 (Enhance confidence and security in the use of telecommunications/ICTs, and roll-out of relevant applications and services);

g) Resolutions 50 and 52 (Rev. ~~Johannesburg, 2008~~ Dubai, 2012) of the World Telecommunication Standardization Assembly, on cybersecurity and countering and combating spam;

~~h) that WTDC-14 adopted Resolution 45 (Rev. Dubai, 2014), on mechanisms for enhancing cooperation on cybersecurity, including countering and combating spam,~~

~~[h) that Question 22/1 of the Telecommunication Development Sector (ITU-D) deals with the securing of information and communication networks through the identification of best practices for developing a culture of cybersecurity, and that WTDC-14 adopted Resolution 45 (Rev. Dubai, 2014), on mechanisms for enhancing cooperation on cybersecurity, including countering and combating spam,~~

~~that Question 22/1 of the Telecommunication Development Sector (ITU-D) deals with the securing of information and communication networks through the identification of best practices for developing a culture of cybersecurity,]~~

recognizing further

a) that global cooperation and collaboration between Member States, the international organizations and all other stakeholders, are necessary in order to address and prevent the illicit use of ICTs;

b) the moderating and facilitating role assigned to the Union under Action Line C5 as referred to above,

~~[b) — that multilateral cooperation between Member States and stakeholders, including the ICT private sector, in the field of preventing and combating the risks of misuse of ICTs is essential and~~

~~important for the sustainable social and economic development of countries and their national security;~~

~~b) — that cooperation between Member States and stakeholders, including the ICT private sector, in the field of preventing and combating risk of illicit use of information and communication technologies is essential and important for the sustainable social and economic development of countries and their security;~~

~~c) — that there is a need to identify collective preventive measures in order to mitigate the effects of illicit use of ICTs at the global level, particularly in developing countries;]~~

c) That sharing information at global level about security practices is of particular value to developing countries in mitigating the effects of illicit uses of ICTs

noting

a) the importance of ICTs, including telecommunications, for the social and economic development of countries, especially developing countries, through the creation of new public services that facilitate public access to information and enhanced transparency within public administrations and can be helpful for the monitoring and observation of climate change, the management of natural resources and reduction of the risk of natural disasters;

b) the vulnerability of critical national infrastructures, their increasing dependence on ICTs and the threats resulting from the illicit use of ICTs,

resolves to instruct the Secretary-General

to take the necessary measures in order to:

i) raise the awareness of Member States regarding the adverse impact that may result from the illicit use of information and communication resources;

ii) maintain the role of ITU to cooperate within its mandate with other United Nations bodies in combating the illicit use of ICTs;

~~iii) start reflection on the implementation of a global charter related to ICT security, taking into account the work of the ITU Sectors, in particular ITU-T Study Group 2 Question 3/2, on securing information and communication networks: Best practices for developing a culture of cybersecurity, and ITU-T Study Group 17, on security,]~~

iii) Inform the Secretary General of the United Nation about the activities undertaken by ITU in implementing this resolution and the ITU recommendations in this regards

iv) continue to raise awareness, within the mandate of the ITU of the need to mitigate the risks and related threats posed by illicit use of ICTs, and continue to promote cooperation among appropriate international and regional organizations

requests the Secretary-General

1 in his capacity as facilitator for Action Line C5 on building confidence and security in the use of ICTs, to organize international and regional meetings and dialogue of Member States and relevant ICT stakeholders, including geospatial and information service providers, to discuss alternative approaches to solutions and opportunities for regional and global cooperation to address and prevent the illicit application of ICTs, while taking into consideration the overall interests of the ICT industry,

~~{2 — to continue his efforts to promote international dialogue and support cooperation, including multilateral and bilateral, in combating the illicit use of ICTs, and to encourage regional cooperation initiatives,~~

~~2 — to continue his participation in international dialogue and relevant cooperation, including multilateral and bilateral, in combating the illicit use of ICTs, and to encourage regional cooperation initiatives,}~~

~~to take into account the activities of the three ITU Sectors, and take appropriate measures in order to contribute effectively to the relevant international discussions and initiatives on issues related to the threats caused and the potential misuse and/or illicit use of telecommunications/ICTs within ITU's mandate,}~~

~~2 when carrying out its activities, to take into account ITU relevant initiatives related to combating threats caused by the illicit use of telecommunication/ICTs within the ITU's mandate, as appropriate.~~

invites Member States and relevant ICT stakeholders

to pursue their dialogue at the regional and national levels in order to find mutually acceptable solutions,

invites the Secretary-General

to collect best practices in terms of actions taken by Member States to prevent the illicit use of ICTs and to provide assistance to interested Member States, as appropriate, to regularly collect and mainstream disseminate best practices in terms of actions taken by Member States to prevent the illicit use of ICTs and to provide technical assistance to interested Member States, as appropriate,

instructs the Secretary-General

to report to the Council and to the next plenipotentiary conference on the measures taken for} progress made on the implementation of this resolution,

invites Member States

to provide the necessary support for the implementation of this resolution.
