Personal: [rteran@arnet.com.ar](mailto:rteran@arnet.com.ar)

Telecommunications Engineer graduated at the *Universidad Nacional de Rosario* (National University of Rosario), Argentine Republic. He acquired experience in the private sector in fixed and mobile telecommunication companies and telecommunication systems manufacturers, and subsequently participated in national regulatory bodies (Communications Undersecretariat, Communications Secretariat (SECOM) and National Telecommunication Commission, and supranational bodies (ITU, CITEL, UNASUR, MERCOSUR).

He acquired a high level of knowledge about the telecommunications business and its regulation, especially in the field of radio spectrum, coordination between services within the country and its planning, both at the national level and with other countries, especially as regards broadcasting, mobile and satellite services, as determined by the Radio Regulations (RR).

He was in charge of the Radio Control Sector of the National Control Authority, as regards stations monitoring, stations technical and legal control, and resolution of interference issues between services, paying particular attention to the Aeronautical Mobile Service.

At the National Legislative Power, he worked in the drafting of laws related to the telecommunications sector, and their subsequent adoption, comparing and adapting them to international standards.

Adviser to the Minister of Defense as member of the Follow-up Committee on the implementation of the Project on the manufacturing and installation of the National Radarization System.

Actively participated in the process of restructuring the Argentine Satellite System, as regards the occupation of its orbital positions.

## **WORK EXPERIENCE**

### **Current Position**

#### **Communications Secretariat (Secretaría de Comunicaciones de la Nación), Argentina**

- ✓ Advisor to the Communications Secretary:
  - At the national level: in areas such as frequency band assignment, development of technical rules, and allocation processes for different radio services. Transition to Digital Terrestrial Television.
  - At the international level: follow-up of Argentina's participation at international radiocommunication bodies, such as ITU (World Radiocommunication Conference WRC-2007 and its preparatory meetings), CITELE's PCC.II, MERCOSUR's SGT Nbr.1, Multilateral Agreements. Participated in the organization of the Regional Radiocommunication Seminar sponsored by the Radiocommunication Bureau (BR), held in 2008 in Buenos Aires.
