Dr. Hamadoun Toure
Secretary-General,
International Telecommunication Union

E-mail: cwg-internet@itu.int

Dear Dr. Toure,

In reply to the ITU letter of 22 November 2013 № CL-13/168, the Administration of Communication of Ukraine informs that the following measures are taken on the Internet-related international public policy issues stipulated in the Annex 1 of Council Resolution 1305:

- Ukraine registered its own Cyrillic zone and received national “.YKP” Cyrillic domain in the Internet. Since August 2013 Ukrainian public authorities began to register their own information resources in the “.YKP” domain. Registration of domain names for owners of trademarks, trade names and other intellectual property rights will be the next step;
- technical information protection system operates in Ukraine to provide information protection and includes a set of organizational structures united by goals and objectives for information protection engineering activities, as well as relevant legal, material and technical basis.

Yours sincerely,

Chairman

Hennadii Reznikov
